Professional Summary

Motivated Computer Science and Engineering student with a CGPA of 9.1, passionate about full-stack development and sustainable technology. Proven problem-solver with hands-on experience building impactful web applications using React, JavaScript, Python, and Firebase. Award-winning hackathon participant with a strong foundation in data structures, algorithms, and clean code practices. Seeking a challenging software engineering internship to apply technical skills and drive innovation.

Education

- **Government College of Engineering, Srirangam** 2023 – 2027
  B.E. in Computer Science and Engineering
  - **CGPA:** 9.1 / 10.0
  - **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Web Development, Operating Systems, Object-Oriented Programming

Projects

- **Sustainable Gaia**
  Tech: *React JS, Firebase, JavaScript, Python*
  - Developed a platform that reads environmental reports and approves projects only if they pose no environmental harm, addressing sustainability issues at the root cause.
  - Implemented an anonymous complaint tracking system to resolve environmental and public issues without revealing citizen identities.
  - Won **1st Prize** in a hackathon conducted by Cipher Lab AI, competing against 15+ teams.
  - Designed and deployed a full-stack solution using Firebase for real-time data synchronization and secure authentication.
- **Quantitative Aptitude Quiz Platform**
  Tech: *React JS, JavaScript, HTML, CSS, Tailwind CSS, Firebase*
  - Built a comprehensive quiz application for college aptitude tests with two distinct interfaces: Student Access for taking tests and Faculty Access for monitoring results.
  - Implemented robust proctoring controls including tab-switching prevention and automatic submission upon detecting malpractice, ensuring exam integrity.
  - Developed real-time result tracking dashboard for faculty to monitor student performance analytics.
  - Deployed using GitHub Pages, making the platform accessible to 100+ students within the college.

Technical Skills

Programming Languages	Java, Python, JavaScript
Web Technologies	HTML5, CSS3, Tailwind CSS, React JS
Database & Backend	Firebase, REST APIs
Tools & Platforms	Git, GitHub, VS Code, LeetCode

Achievements & Awards

- **1st Prize - Cipher AI Hackathon**: Delivered a sustainable solution to environmental problems, winning among 15+ participating teams.
- **1st Prize - Aptibyte Competition**: Demonstrated excellence in aptitude and problem-solving skills.
- **Best Academic Performer**: Recognized for consistent academic excellence and maintaining a high CGPA.

Areas of Interest

Full-Stack Web Development | **Sustainable Technology** | **Problem Solving** | **Data Structures & Algorithms** | **Cloud Computing**
